

Speirling

Chassis	Full carbon monocoque with integrated battery, carbon crash structures and carbon bodywork
Driver size	Maximum driver height 6'7
Safety	Designed to comply with the standards of the highest levels of motorsport
Suspension	Multi-link with active ride height control
Brakes	Carbon
Wheels and tyres	Bespoke construction. Front: 210/640-R19 on 9.5" width wheel. Rear: 240/640-R19 on 10.5" width wheel
Drivetrain	McMurtry E-axle, RWD
Power	1 hp:1 kg power to weight
Fan power	More than 80 hp
Battery capacity	60 kWh
Battery voltage	Over 800 V
Track driving range	30-60 mins
Road equivalent range	WLTP 350 miles
Charge rate	Up to 600 kW peak (pitstop quick charge)
0-300kph	Estimated under 9 seconds (as presented)
Top speed	Over 200 mph
Downforce	More than 500 kg from 0 mph
Length	3200 mm
Wheelbase	2000 mm
Width	1500 mm
Height	1050 mm
Mass	Under 1 tonne
